

Reborn Everyday With Hot Water

**WE JUST MAKE
WATER HEATERS,
AND WE MAKE THEM BETTER
FOR YOU.**

BRINGING OVER — 60 YEARS OF — TRUST

Reborn Everyday With Hot Water

Racold is India's most trusted brand (as per Brand Trust Report 2016) and one of the largest providers of water heating solutions for over 60 years in India. It is a fully owned subsidiary of the Ariston Group-Italy, the world leaders in the water and environmental heating solutions. Ever since its inception, Racold, has been setting standards in the Indian Water Heating Industry by bringing in new technology, enhancing the aesthetics, quality, safety, durability and performance of the product.

Racold has set a new benchmark in the industry for energy efficiency standards and has the distinction of being the only brand in the water heating category to win the BEE award for the 10th time.

Racold is the only brand in the water heating category to be chosen as Superbrand for 2019 & 2021.

WHY CHOOSE — RACOLD FOR — WATER HEATING?

60 Years of Excellence

Delivering breakthrough innovation, quality water heating solutions and complete customer satisfaction for over 60 years.

10 Times BEE Award Winner (2010-2020)

We place energy efficiency at the heart of our sustainable growth strategy and are deeply committed to energy conservation.

Safety Foremost

Racold Water Heaters have multiple measures for safety against high temperature and pressure. Equipped with features that ensure thermal stability and prevent chances of hazards.

Selected Superbrand

Racold is the only brand in the water heating category to be chosen as Superbrand for 2019 & 2021.

Always At Your Service

With our network of more than 1000 service technicians, 400 service centers across the country & 24/7 WhatsApp chat services, its always easy to reach out to us.

Stay Assured For 7 Years

Our 7-year warranty is a special commitment to provide only the highest standard in water heating to you.

REVOLUTIONARY FEATURES OF RACOLD

BETTER CONTROL & ENERGY SAVING

Making water heating easier at every step with our smart features.

Wi-Fi CONNECT

Get ease of control anywhere and anytime with Wi-Fi connect.

SMART BATH LOGIC

Customise your bathing experience with Smart Bath Logic.

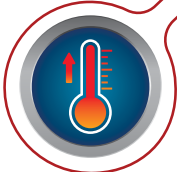

LIGHTNING FAST HEATING

High powered heating element that provides hot water instantaneously.

QUICK FUNCTION

Set maximum heating temperature with a press of a button. Override temperature settings to get hot water quickly with one-press process.

ECO FUNCTION

One of our unique set of features, specifically designed to minimize the energy consumption.

FLEXOMIX

Unique inlet flow controls the system to deliver energy efficiency by producing 10%* more hot water.

REVOLUTIONARY FEATURES OF RACOLD

RELIABLE BUILD

Your long-term partners in water heating.

TITANIUM PLUS

A strong and durable heating tank, made and coated with Titanium alloy, to withstand corrosion and pressure for a long time.

TITANIUM ENAMELED HEATING ELEMENT

For efficiency, strength, low energy consumption and longer life.

SMART GUARD

A special anode used with the heating element employs an electrolytic process that protects the heating element from corrosion, thus greatly enhancing its life.

SLIM DESIGN

Compact and space-saving designs for modern urban spaces.

SMART SIZES

Efficient water heating in utilitarian and compact sizes.

REVOLUTIONARY FEATURES OF RACOLD

SAFETY ASSURED

Experience the power of hot water with a complete peace of mind.

AUTO DIAGNOSIS

An advanced microprocessor that safeguards the water heater to ensure complete safety of your family.

OXYGEN DEPLETING SENSOR

Safety sensor that immediately turns-off water heating in case of oxygen depletion to prevent any potential hazard.

DOUBLE SOLENOID VALVE

Advanced feature that delivers twice the safety with two solenoid valves.

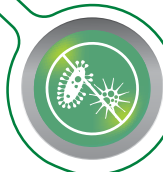

SAFETY PLUS

A thermostat, multi-function safety valves and cutout for multiple level of safety against high temperature and pressure.

SILVER-ION TECHNOLOGY

It actively stops proliferation of bacteria to provide healthy and clean bathing water.

70% Energy Savings**

It uses electricity only to move heat from one place to another and not to generate heat, using 70% less electricity compared to conventional water heating solutions.

Heat pump water heaters have a COP (Co-efficient of performance) of 4.25, meaning that the energy produced in the form of hot water is 4.25 times more than that is consumed.

In comparison with electric water heater the annual saving is ~₹10,000/-

^Savings are calculated @ ₹10 per unit, subject to internal lab test conditions.

White

70% Energy Savings**

It uses electricity only to move heat from one place to another and not to generate heat, using 70% less electricity compared to conventional water heating solutions.

Heat pump water heaters have a COP (Co-efficient of performance) of 3.8, meaning that the energy produced in the form of hot water is 3.8 times more than that is consumed.

In comparison with electric water heater the annual saving is ~₹10,000/-

^Savings are calculated @ ₹10 per unit, subject to internal lab test conditions.

COMMERCIAL SOLAR WATER HEATER RANGE

End-to-end technologically advanced hot water solutions for all types of commercial and hybrid applications. We have successful implementations across Residential, Hospitality, Medical & Healthcare, Educational Institutes and Industrial Sectors. Applications range from hot water for bathing, laundry, swimming pool, medical equipment, cleaning, industrial cleaning and much more.

COMMERCIAL HEAT PUMP

Our heat pump water heating solutions save upto 70%* electricity compared to conventional water heating solution. Commercial Heat Pump Water Heaters are available from 125L per hour (6kW) to 1000L per hour (44kW) output capacities.

*Subject to Internal Lab Test Conditions
